WHERE RESPONSIBILITY RESTS.

And Whether the Breaking of the Dam Was Due to Negligence.

HE IS VERY MUCH IN EARNEST Matter to the Bottom.

Coroner Evans, of Cambria county, seems determined to do all in his power to fix the responsibility for the recent disaster, or at least to ascertain whether negligence was the cause of the dam breaking. He intends to obtain the testimony of expert engineers who have visited South Fork lately. He says he has beard of no damage suits being brought against the fishing club.

FROM A STAFF CORRESPONDENT.1

JOHNSTOWN, June 20 .- Coroner Evans, of Cambria county, will resume the work of investigation next Wednesday in earnest. So far he has been too busy, caring for the living, to proceed. The Coroner is a fine-looking old man of massive proportions and determined expression. He is a man of strength, and if the jurymen partake somewhat of the qualities of the Coroner, something is likely to drop in the way of a startling decision. Coroner Evans is very much in earnest, and means to place the responsibility for the recent terrible disaster, if, indeed, human negligence had any-thing to do with the frightful catastrophe. In a short chat to-day Dr. Evans said:

will make an effort, when the jury meets, to secure some expert testimony about the condition of the dam. I have in mind John Fulton, who examined the reseroir, and a draughtsman at Moxham, whose ame I have forgotten. I understand other ugineers have inspected the structure, but I ave been so busy that I do not even know

EXPERT TESTIMONY WANTED. At this point the reporter suggested Engineer Brinkerhoff, of the Mining and Civil Engineering Journal, and some others who had been at South Fork. Mr. Brinkerhoff's opinion of the dam has already appeared in THE DISPATCH. The Coroner wrote down the names suggested, and said he would endeavor to secure sworn deposi-

tions of their testimony. Continuing, Coro-

ner Evans said: "I will take the jury to the dam if I can't get satisfactory evidence. The trouble is that the Coroner has not the control of any funds. I can't pay experts to go to South Fork and examine the dam for me. In fact, I am not allowed by law to pay witnesses, but I can compel them to attend the hear-ing. From what I am told and have read, the dam was without a flood-cate the dam was without a flood-gate of any kind to relieve the pressure of the water. The reason given by the mem-bers of the club, is that they were

AFRAID OF LOSING THE FISH. "It seems to me they value the finny tribe more than the human race. I think they could easily have had flood-gates in the dam, and prevented the fish from escaping by the use of screens. But there is no use talking about that now. I see the Westmoreland county jury has rendered a verdict, and all I can see in it is that so many people died from the effects of a flood, caused presumably by the breaking of the dam at South Fork. I should think there is not much doubt about that by this time. I haven't heard of any damage suits as yet. I lost my library and surgical instruments, and my office is ruined; but \$1,000 will cover my entire loss. I was more fortunate than my neighbors."

CONTRIBUTIONS OF CLUB MEMBERS. people had contributed anything to the sufferers, and if so, how much. The reporter was unable to answer this question, but as many of them are very charitable men, I assured him that I thought some at least had contributed liberally. He then asked if

Mr. Carnegie had given much money, but his generosity is on record.

It is expected there will be some trouble when the time comes to lay out the lots. Many of the boundary lines and landmarks have been washed away, and some litigation is probable. However, the plan of the town and the records of all deeds are preserved at the Court House in Ebensburg and after all the various plots may be located without much wrangling. At any rate there is no use borrowing trouble and worriment. Concerning this vexed ques-tion, Coroner Evans said:

NO GREAT DIFFICULTY ANTICIPATED. "I do not think there will be much trouble on this score. In the annihilated parts of the town the streets were nearly all paved with Belgian blocks, and these remain intact. With the streets definitely located, I can't see that the engineers will have much trouble to renew the plan of the town, not only on paper, but on the earth."

Coroner Evans did not think a consulta-

tion of the Coroners of the different counties would be called. He hasn't heard what the officials of Indiana and Armstrong counties have done. Coroner Hammer and the Com-missioners of Westmoreland county left the reporters under the impression that the verdict of their jury would be pretty salty, but when they came to pen their decision, they weren't even sure that the South Fork dam had caused the flood. Coroner Evans doesn't say much on this subject, because he is not allowed, but if anybody can be held re-sponsible for the breaking of that dam the jury will try to name them. ISRAEL.

FOR NERVOUS EXHAUSTION

Use Horsford's Acid Phosphate. Dr. H. C. McCoy, Algona, Ia., says: "I have used it in cases of dyspepsia, nervous exhaus-tion and wakefulness, with pleasant results. Also think it of great service in depressed con-dition of the system resulting from biliary de-rangement."

ALL THE SOUTHERN MAIL

Which Left Nashville on One Night Has Mysteriously Disappeared-A Large Sum of Money Thought to Have Disappeared-

The Investigation. NASHVILLE, TENN., June 20 .- All the mail that left the Nashville postoffice for the South on the night of May 7 has disappeared. The fact has been withheld by the postoffice officials that the investigation might not be hampered. For two days a Government inspector or detective has been in the city, but he has proceeded so quietly that his presence has been known to only attaches of the department, and not all of them were aware of his coming. The mail for Southern points as far as New Orleans was arranged as usual, put in a pouch, locked up and delivered at the door of the postoffice to the driver of the wagon which carries mail to the depot. The pouch was locked up in this wagon, which drove off toward the depot, and that is the last heard of it as yet. The loss of the pouch

was detected in two or three days, and in this way: According to a rule of the Government, a number of Southern postoffices are required to daily remit to the Nashville postoffice any excess of receipts over a certain sum, which varies according to the volume of business done at a place. This is done that no large amount of money may be stopped at any office. Nashville in turn makes a daily remittance to Louisville, and Louisville to New York. Receipts for these remittances to New York. Receipts for these remittances are daily sent to the postmasters forwarding the money. On May 9 the postmasters to whom receipts were due from Dr. Currer for remittances of May 6, wrote that their vouchers had not arrived. The banks at Franklin, Columbia and Pulaski then notified him of the failure to get checks, etc. Proof that the entire mail from Nashville to the South had discovered available account. the South had disappeared rapidly accumulated, and Dr. Currer made an investiga-

He learned, it is stated, that the mail pouch had been delivered at the door of the postoffice as usual to the driver at the the postoffice as usual to the driver at the contractors wagon. The mail clerk on the train which should have received the packages stated that he had never seen anything of it. The pouch, it was thus reasoned, had disappeared after leaving the postoffice. But how? To settle that question Dr. Currer on May 13, notified the department at Washington that it might make an investigation. Nothing further was heard in this connection until, as stated, Mr. Stubbs, a special agent, came to Nash-Mr. Stubbs, a special agent, came to Nash-ville last Tuesday to hunt the affair down. It is impossible now to learn how much money was in the mail. It was destined for a large and important territory, and the pre-sumption is that the pouch contained much valuable matter.

Make Saturday a Holiday And spend the day in a ride down the Ohio on the steamer Mayflower to a charming, heathful and convenient place, Groveland. Whatever you may have bought elsewhere or may contemplate buying, look at this plan of 300 large, level lots, to be sold at auction Saturday, June 22. Photographic views and sketch of surroundings now at my office. office. Low prices; easy terms; no interest on deferred payments; no taxes. M'KINLEY FOR GOVERNOR.

That is the Plan of the Republicans

Enstern Ohio. CADIZ, June 20 .- A number of delegates to the Republican State Convention from Eastern Ohio met to-day by prearrangement at Sclo and unanimously resolved to present the name of Hon. William McKinley for Governor. They claim to know he will accept. This section of the State would go wild over the nomination of a man whose loyalty to Sherman at Chicago led him to put aside the

Presidency.
"First Governor, then President," is now the motto of his friends. Major McKinley was not advised of this meeting, but his supporters seem to understand their busi-

Choking Catarrh.

Have you awakened from a disturbed sleep with all the horrible sensations of an assassin with all the horrible sensations of an assassin clutching your throat and pressing the lifebreath from your tightened chest? Have you noticed the languor and debility that succeed the effort to clear your throat and head of this catarrhal matter? What a depressing influence it exerts upon the mind, clouding the memory and filling the head with pains and strange noises! How difficult it is to rid the nasal passages, throat and lungs of this poisonous mucus all can testify who are afflicted with catarrh. How difficult to protect the system against its further progress toward the lungs, liver and kfuncya, all physicians will admit. It is a terrible disease, and cries out for relief and cure.

is a terrible disease, and cries out for relief and cure.

The remarkable curative powers, when all other remedies utterly fall, of SANFORD'S RADICAL CURE, are attested by thousands who gratefully recommend it to fellow-sufferers. No statement is made regarding it that cannot be substantiated by the most respectable and reliable references.

Each packet contains one bottle of the RADICAL CURE, one box of CATARRHAL SOLVENT and an IMPROVED INHALES, with treatise and directions, and is sold by all druggists for \$1.

Cured of Catarrhal Asthma. Mrs. Alice Brownbill, an English lady, but who has lived in this country for nearly two years, has for the past ten years been badly afflicted with asthma. It was produced by a catarrhal poison in her system that was slowly but surely doing its deadly work. A part of the secretion that formed in her head was discharged through her nose, and a part dropped down the back part of her throat, and which, produced asthma. She coughed, and her breath at times was very short. She had pains under her shoulder plades, and also over her eyes. Her appetite was very poor, and the little food she was able to eat gave her stomach much distress and belching of gas, and every morning she would womit up her food. As has been stated, her breath was very short, and every time she caught a cold she would have to be boistered up in bed during the night in order to breathe. When she applied, last April, to the physicians of the Catarrh and Dyspepsia Institute for treatment, the wheezing in her lungs could be heard all over the house. On May 24 she says "that my catarrh and asthma have been entirely cured by the physicians of the Catarrh and Dyspepsia Institute. I hereby sign my name.

THE BRAIN (from a photograph). Healthy Condition. With Paresis Lesion There are two well-known men confined in

Bloomingdale, N. Y., Asylum who less than a

year ago were prominent in club and society life.

Paresis! Did it come on at once? Not at all. It was a gradual but positive growth. They overtaxed nature. The drain on their vitality, their nerve powers, their brain on their vitality, their nerve powers, their brain tissue, was too great, and they gradually but surely sank under it. The things they did to bring this sad end about are precisely the same things that are being done by thousands of men and women in this very city to-day. It is not necessary to name them. They all end disastrously unless checked or regulated.

Prof. Phelps, of Dartmouth College, knew this fully when he began his experiments which resulted in the discovery of the wonderful Pane's Celery Compound. He realized that P ar e s is (consumption of the brain) was our great National weakness. He knew that the brain and nervous system must be fortified to mest the great strains which modern life bring upon it. He saw that men were becoming debilitated and women weakened by the pressure and demands of life, and he sought and discovered the remedy. Paine's Celery Compound, if rightly taken, will renew the brain and build up nerve tissue as fast as they become exhausted. It is not a narcotic. It contains no drugs, no nostroms. It is perfectly pure. It is absolutely harmless, The high character of its discoverer guarantees this, and the endorsement of the medical and chemical professions proves it.
